

Dear Invermere Healthcare Auxiliary
Scholarship Committee,

I am very grateful for the honour of receiving this year's Scholarship. I value the time & generosity of those who have contributed to our community through volunteer work. This year I had a very heavy workload as I completed all of the sciences, maths & academic classes. I therefore have decided to take a break & to defer my acceptance to Biochemistry at the University of Victoria until September of 2022. This next year I will be working full time in Invermere with hopes of travelling in March. I hope to contribute to the community by volunteering my time in the fall.

Let me know if you need any more information regarding my post secondary education plans.

- Hannah Zehnder
