Dear Edie,

Thank you for the support of your staff and Board to enable us to provide clothes, household wares, lamps, and appliances, and other miscellaneous items for two senior male clients in need from the Thrift Store. Both gentlemen greatly appreciated these items and they are being used to live independently as a result of these wonderful gifts. They had nothing. Our staff and I are grateful and appreciative of your support especially in cases like these. On behalf of our clients please accept their most sincere thanks.

Kind regards,
