Re: Post-Secondary Scholarship

To the Invermere Health Care Auxiliary Society,

My name is Tannia Tallis and I am one of the recipients of the 2019 IHCAS Post-Secondary scholarship. I am writing to express my appreciation and sincere gratitude for the support you have provided me with.

I aspire to become a rural nurse and work in remote communities across Canada. As a third year RN student, I am very close to the end of my degree, and this means it is very important for me to focus on my studies and gain as much experience in practice as possible before jumping into more autonomous and meaningful work as an RN. Receiving this scholarship means that I can continue to focus on my goals instead of worrying about the many expenses along the way.

I would like to thank you again for building brighter futures for us students!

Best regards,
